Dear FCC

It is absolutely outrageous that you are allowing Sinclair Broadcasting to use the free airwaves in our country! Is this what our country has become, and to allow our free air space to be used as a pawn in a political race?

If this documentary were to be ordered and paid for, then I say, do it, it's everyone's right, however, this is not what's being accomplished here!

It is my plea that this will NOT be allowed to happen!

Sincerely,

Diana Klaprod
